<tr>
<td>A 90 – 100</td>
<td>A student’s Grade Point Average (GPA) is calculated by dividing the total amount of grade points earned by the total amount of credit hours attempted. All semester grades for courses attempted will count toward a student’s GPA. Weighted GPA is used to determine class rank. Unweighted GPA is used for admission to most colleges and universities and for scholarships at in-state schools.</td>

<tr>
<td>B 80 – 89</td>
<td>Harmony Public Schools are noon ranking schools and only rank students within the top 10% or if it is for the benefit of the student. A class rank indicates how a student's grades compare with those students in his/her class.</td>
